Learn basic characters with a dazzling introduction to the A to Z method. The program is a practical and fun way to learn and remember the alphabet with beautiful images, while illustrating the step-by-step process of solving math problems. While learning the alphabet, kids will discover how the characters are connected to other words and how they correlate. Features: Learn the alphabet: Ease-of-use and functionality is emphasized by both its ease of use and easy-to-learn interface. A fun-filled introduction to the A to Z method is provided, accompanied by beautiful images. Explore the alphabet: A fun way to explore the alphabet is given with the alphabet box, and a more in-depth view of each letter is provided with the to-be-learned word box. Math problems: A creative way to apply math skills to make learning to read fun and memorable is provided through word and number puzzles, which can be solved with the Windows calculator. Create your own letter card: Practice letter recognition, sound combinations and basic spelling with this fun and challenging way of making your own letter cards. Learn and practice basic spelling skills with the included spelling practice games. A to Z is the best way to learn the alphabet with playful images and games that can be easily played with your child.
